KENNEDY ALL STEEL TOOL KITS

MECHANICS KITS

Fig. 13824A

Made of prepared steel, but are no heavier than leather grips, their average weight being 5 to 11 pounds, depending on size. They are built to withstand wear and hardest usage. Tray very handy for drills, bits, small parts, etc. Fitted with brass side catches, corner irons, strong Yale or Corbin lock. Steel, leather covered handles, so riveted that they cannot pull out. Water, oil, thief and wear-proof. Finished in a three-coated, baked enamel of brown or black. Double seamed, electric welded and reenforced throughout.

MACHINISTS' CASES

The material and construction of this case is such that it will not swell, warp, crack, split or go to pieces. Re-enforced at all points of strain. Drawers run on separate tracking, are rigid and slide easily into place. Front drops and slides under lower drawer when open. Fastens at bottom and securely locks to upper lid when closed. Electric welding and inner corrugation in lid prevents changing shape or buckling. Extra till under lid and all drawers lined with best quality felt and fitted with solid brass pulls.

ELECTRICIANS' CASES

Designed to meet all the requirements of an electrician's tool kit. They have divided spacing at one end for blow torch, and ledge rests at the top of grip for tray to carry drills, bits, small parts, etc., if desired. Ample space at the bottom for tools, material, etc. In addition to leather handle, they are fitted with loops at each end for straps to pass under the case and over the shoulder for carrying heavy loads.

1¼	2	⅞	⅞	1¼	1⅛	1¾	2¾	25	17.00	18.50

The frame or body is made of seasoned poplar, locked together at the corners. Veneer panels. Drawer fronts and doors are solid mahogany. All cases are covered with imitation black seal grain leather. Fittings are polished lacquered brass. Handles are soft leather. Door is hinged on bottom, with special tongue and groove construction. Can be removed and slid under the bottom drawer. Equipped with cylinder brass lock with two keys.

GERSTNER TOOL CHESTS

STYLE 31

Fig. 17860A

STYLE 031

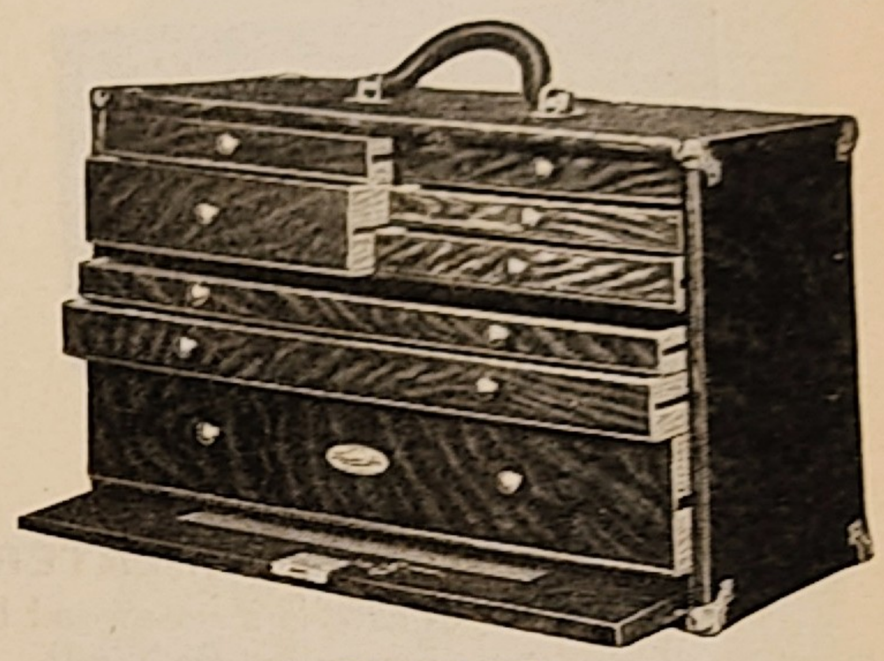

Fig. 17860B

STYLE 31

The standard toolmakers' and machinists' case. It has a convenient arrangement of different sized drawers—a place for every tool. The lid is self-hinging, has a felt lined tray to lay tools on or can be slid under the bottom drawer. The workmanship, material and design are of the best. Drawer fronts are nicely figured and polished quartered oak, have sheet metal bottoms, felt lined, and trimmings are of brass, polished or nickeled.

Style No.	Inside Dimensions of Drawers, Inches										Dimensions Inches	Price Each
	Length	Depth	Height 1st	2nd	3rd	4th	5th	6th	7th	8th		
31	Short 6⅝ Long 14¼	6¼	1	2	1	¾	1⅛	⅝	1¾	2½	16x11¼x8½	13.00

31B	Short 8⅝ Long 18¼	6¼	1	2	1	¾	1⅛	⅞	1¾	2½	20x11½x8½	14.50
31C	Short 8⅝ Long 18¼	7¼	1	2	1	¾	1⅛	⅞	1¾	2½	20x11½x9½	15.50

STYLE 031

This case is similar to No. 31 case, but not covered. It is made of nicely figured quartered oak in the medium or dark finish, hand rubbed and polished. Corners are dovetailed and rounded. The paneled lid forms a felt lined tray on the inside, is self-hinging and rolls under the bottom drawer on steel bearings. This case is strictly Gerstner quality and equal to our best in every respect.

Style No.	Inside Dimensions of Drawers, Inches										Dimensions Inches	Price Each
